Here's the Deal by Kenny Lukas

With Joe Biden now in the White House, he has brought out his Covid Relief Plan. There's a lot in it, and I'm sure we will hear the incessant sniveling coming from the cry baby Republicans about the cost of this plan (when it was voted on, not a single Republican voted for it). They would rather watch our great nation sink into oblivion than vote for a bill that helps the workers who keep our economy moving forward. It is way too large to explain the details now, but you could read it at <https://www.whitehouse.gov/american-rescue-plan/>.
